

**PRECISION MACHINED & FINISHED...
TO THE HIGHEST YACHT STANDARDS**

FREEMAN Premium Portlights are designed for use on both elegant yachts as well as specialty high-speed commercial craft where rugged performance is required. 4000 Series Portlights incorporate a modular concept that allows easy upgrading when added features, such as deadlight covers or shutters are desired.

FREEMAN Premium Portlights are precision machined from Almag 35 castings on the latest numerically controlled milling centers and finished to the highest standards. Whether custom painted in linear polyurethane, powder coated, or anodized, FREEMAN Premium Portlights are lightweight, fortress strong and corrosion resistant. FREEMAN MARINE is proud to have had its premium portlights specified by leading custom yacht builders around the world.

**PREMIUM PORTLIGHT DESIGN FEATURES:**
